EXPERIENCE

Full Stack Developer Intern

FRINT (NGIQ FRINT Technologies LLP)

Mar 2026 – May 2026

AI Interviewer System

- Developed backend APIs using Node.js and Express.js for AI-based interviewer system
- Built reusable React.js components for interactive interview workflows
- Improved system performance through debugging and iterative optimization

PROJECTS

MindSync AI Voice Emotion Analyzer GitHub

- Built NLP-based emotion detection system from speech/text inputs using TensorFlow/Keras
- Designed preprocessing pipeline including tokenization and feature extraction
- Implemented real-time inference engine for conversational emotion tracking
- Collaborated with Rajdeep Mudiar

Speech-Based Cognitive Screening System GitHub

- Developed AI system to detect cognitive impairment using speech analysis
- Integrated Vapi-based voice interface for real-time conversational screening
- Built MERN dashboard for session tracking and analytics visualization
- Collaborated with Rajdeep Mudiar

Maitri Online Therapy Platform (SIH Project) GitHub | Live Demo

- Built full-stack MERN platform for mental health support and cognitive assessment with gamified testing modules
- Designed cognitive assessment system (Digit Span, Stroop Test, N-Back, Reaction Time) with age-normalized scoring and risk analysis
- Implemented AI chatbot, therapist booking system, multilingual support, and automated report generation (PDF/CSV/JSON)

EDUCATION

B.Tech Computer Science & Engineering

Gauhati University Institute of Science & Technology

2024 – Present

CGPA: 8.55

- Branch Topper (Sem I & II, IT stream before upgrade)

Class XII (CBSE)

Maharishi Vidya Mandir, Guwahati

2024

82.4%

- Computer Science: 93%

Class X (CBSE)

Maharishi Vidya Mandir, Guwahati

2022

85.0%

- Consistent academic performance

ACHIEVEMENTS

- Smart India Hackathon 2025 Grand Finale Participant
- Branch Topper in Semester I and II

CERTIFICATIONS

- Full Stack Web Development (MERN) Apna College
- Cloud Computing Bootcamp CDAC Noida (MeitY & NASSCOM)

SKILLS

- **AI/ML:** NLP, TF-IDF, Bi-LSTM, TensorFlow/Keras
- **Programming:** Python, C, JavaScript
- **Web:** React.js, Node.js, Express.js
- **Database/Tools:** MongoDB, Git, Linux
